Title of the Project : **Bhojan for All – Donate Now Feed Many**

**ABSTRACT:**

A User-Friendly Application designed to combat the problem of Hunger present in our society. The Global Hunger Index 2018 ranks India at 103 out of 119 countries based on three leading indicators – the prevalence of wasting and stunting in children under 5 years, under 5 child mortality rates, and the proportion of undernourished in the population. This application is developed keeping in mind of the Wastage of Food at various places like Household Communities, Restaurants, Commercial Places and Functions. The food wastage at these places is usually thrown into Garbage. To overcome this scenario, this application helps to connect both the Volunteers and the Food Donors. Whenever there is leftover food, Donor will be updating his/her details on the Application which sends notification to Volunteers registered already in the application.

**Project Supervisor:**

Dr. Ajit Kumar Rout

**List of Students developed:**

K. N. V. R. S. Sai Kiran – 18341A1224

G. V. N. Chandra - 18341A1215
